

X500 SERVER

RUGGED MOBILE SERVER

Windows Server 2012

15.6" Widescreen full HD display

800 NITs QuadraClear™ LED display

Intel® Core™ i7 1.73GHz Quad-Core processor

Up to 5TB of storage/RAID 0,1,5

Industry's best 5 year bumper-to-bumper warranty

5TB of Storage/RAID 0, 1, 5.

The X500 Rugged Server has a hardware RAID controller capable of improving performance and protecting your data. With up to 5 terabytes of storage, the X500 Server can be configured for RAID level 0, 1, 5.

Quad-Core Processing.

With a state-of-the-art 1.73 GHz Intel Core i7 quad-core processor outfitted with 8MB Intel® Level 3 Smart Cache, the X500 Rugged Server was built to handle the most complex processing tasks.

Compact and Mobile.

At 16.1 x 11.4 x 4.6 inches in size, the briefcase-size X500 Rugged Server can be easily carried and deployed, maximizing uptime and efficiency. Self-contained, the X500 Server was designed to be brought to the front line and turned on with the same simplicity of a standard notebook.

Sunlight Readable Display.

The X500 Rugged Server features an advanced QuadraClear™ display. Getac's QuadraClear solution combines proprietary technologies for both screen brightness and anti-reflectivity to reduce the sunlight's reflectivity and provide a more effective contrast ratio than other displays.

Built to Survive.

Built from high quality magnesium alloy, the X500 Rugged Server features a casings that is specifically engineered to protect the computer against drops, shocks, spills, vibration and more.

Industry's Best 5-Year Warranty.

The X500 Rugged Server is designed from the inside out to survive drops, shocks, spills, vibration and more. We're confident in our quality and that's why the rugged X500 Server comes standard with the industry's best 5-Year bumper-to-bumper warranty.
